Step 1: Send us your completed agreement with biography, profile photo, & logo. We will set up your custom site within 2 business days.

Step 2: Import Your Contacts. At minimum, we need First Name, Last Name, and email address in order to use them in the Auto Drip system. The screenshot displays a personalized website for Bill Broich. At the top, there is a navigation bar with links for Home, Articles, Videos, Download Library, and Profile. A prominent video player features the title "Fixed Indexed Annuities Is One Right For You?" with a "Watch Now" button. Below the video are three download links for PDF documents, each with a "Download" button. A contact form is visible, asking for Name, Last Name, Email, and Phone, with a "Submit" button. The "ARTICLE HIGHLIGHTS" section lists three articles: "Understanding the Difference Between Fixed and Variable Annuities", "The Good News: The Longer You Live, the Longer You Live", and "Verifying Social Security Benefits to Maximize Your Benefits". The "ANNUITY QUESTIONS?" section includes a link to "Download the 2017 Best Annuity Rates Report". The footer contains a disclaimer, copyright information for 2017, and the RetireVillage logo.

Step 3: Add More Contacts Each Month, and Monitor Interest. Our reports will provide you with customers who have opened emails and if privacy permissions allow, we may even know what articles they read on your site. You may follow up proactively with active contacts or just wait to field inquiries from interested contacts.

What is Included?

Retire Village DELIVERS:

- **Fresh Articles, Videos, and PDF downloads on Retirement Topics generated every month.** Well researched and timely retirement-relevant information that your contacts will find valuable.
- **Mid-month and month-end Auto-Drips.** We create and send 2 emails out to your validated contacts each month, sending out to our member contacts over several days around mid-month and month-end. These Auto-Drips link to one or more articles on your web site.
- **Drip Activity Reports** through the agent dashboard show which contacts have opened the emails and how many times they have done so.
- **Custom Emails** can be sent any time to your entire contact list or to groups that you create. We allow up to 3000 individual emails to be sent out each month, so with a contact list of 1500 you can send up to 2 additional custom emails monthly.
- **Contacts Verification is built into our system** so you will know which contacts are verified and receiving email.
- **We also generate a four page Monthly Newsletter** published on the FIRST WEEK (generally the first business day) of the month as a generic Adobe Acrobat document. This newsletter contains seasonal and general interest articles in addition to one article that is financially oriented.
- **Email and Phone Support** for your custom drip campaigns and site modifications – if you are interested in adding downloads to your library, changing your biography, learning how to send custom emails, or interpreting your reports, send us an email or schedule a call and we will help you make the changes or get the training you need.

Start with our first month TRIAL: Your First Month is \$49 – after that, you will be billed at our regular \$99 rate.
